

House of Geeks presents

IIT Ranchi's first ever Hackathon !!

HOUSE OF HACKERS

CREATE | HUSTLE | SUCCEED

About House of Geeks

House of Geeks is the Technical Society of Indian Institute of Information Technology, Ranchi.

It is a banyan tree consisting of various technical communities as its branches.

- These consist of Competitive Programming, Core Electronics, IoT, Robotics, Software Development, Machine Learning, Blockchain, Cybersecurity and Designing. The technical society also has a GDSC and IEEE branch.

We have always targeted the growth of everyone as our prime motto and will be doing so in the coming future too.

House of Hackers

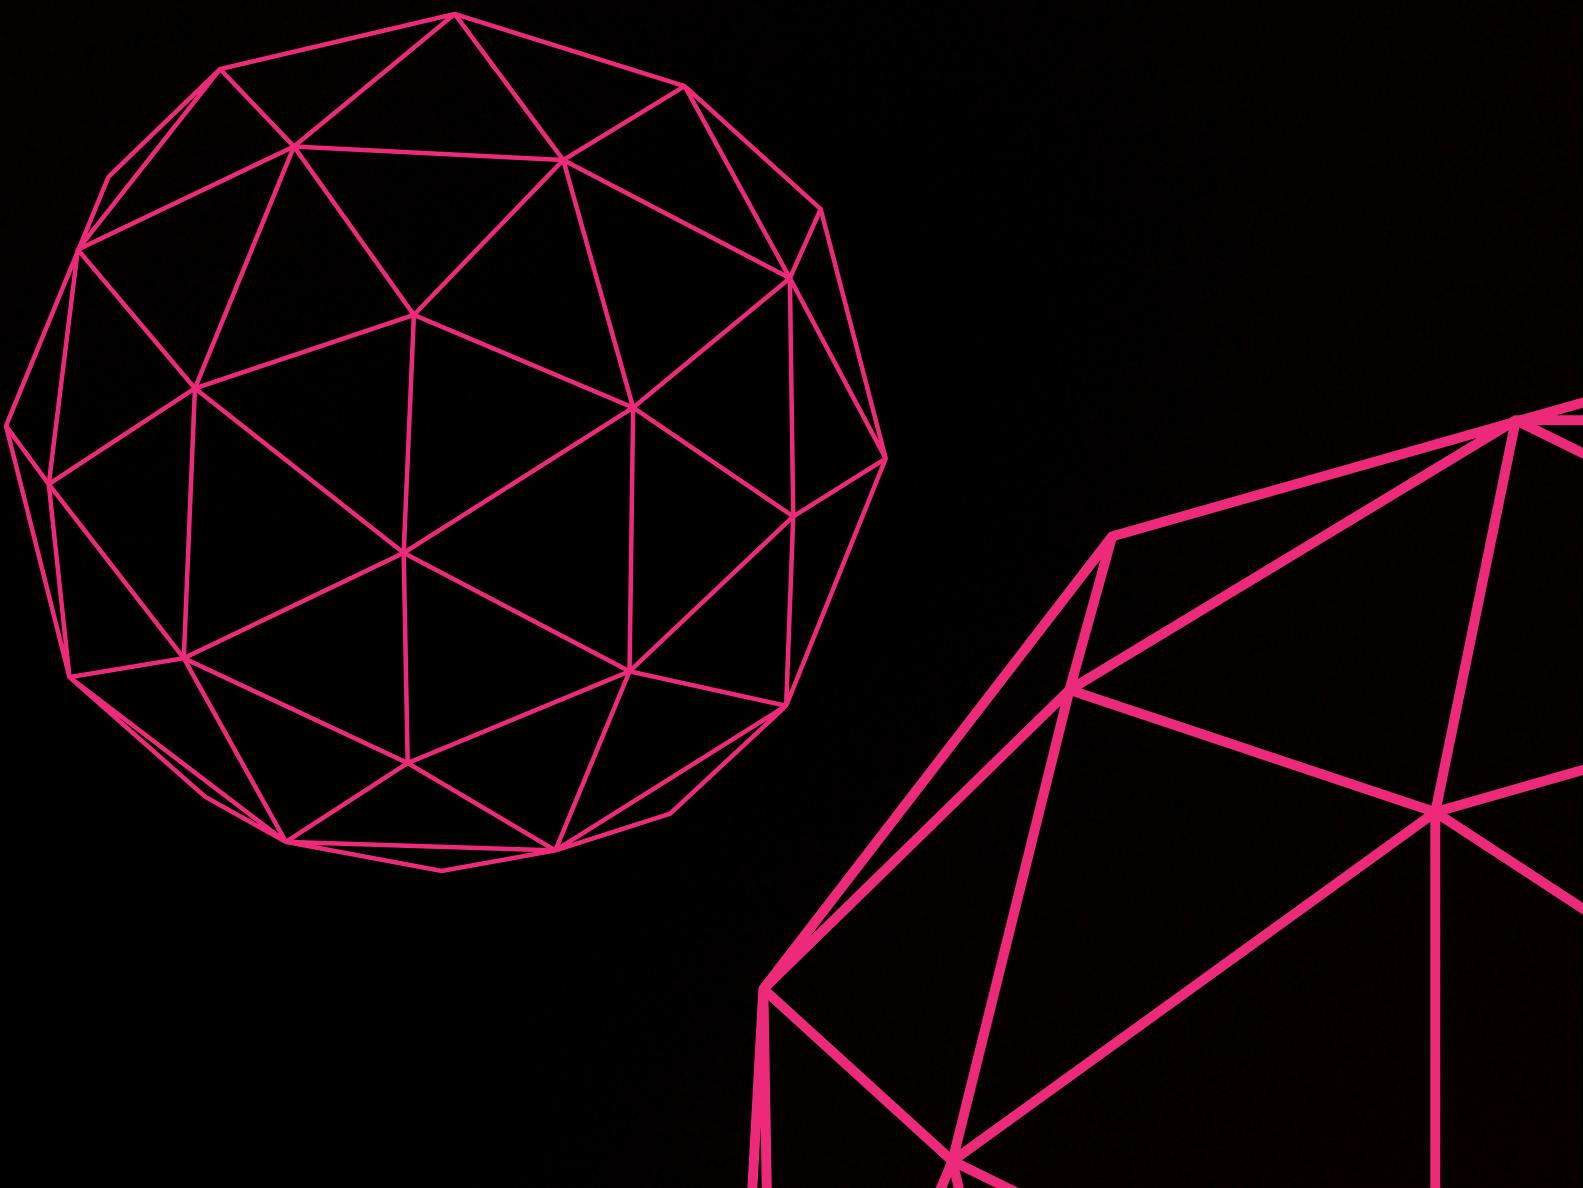

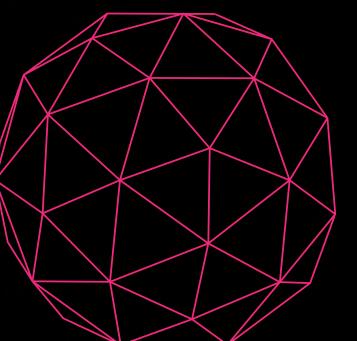

An insight into IIIT Ranchi's first ever hackathon

WHAT IS A HACKATHON ?

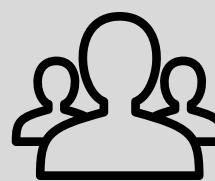

A hackathon is an event that brings together tech enthusiastic individuals in form of teams and creates a collaborative environment for solving certain problems.

MISSION

Over years our college has organized many events in the past, but this time House of Geeks has taken an initiative to organize a 36-hour hackathon to exploit the full potential of everyone.

Vision of House of Hackers

PROMOTE CREATIVITY AND TEAM WORKING:

House Of Hackers supplies a platform for students to unleash their creativity and collaboration skills, two vital skills for future learning and career development, through producing ideas and building the product collaboratively.

ENHANCE STUDENTS' SKILLS:

House Of Hackers is not just a software focused hackathon, but it also focuses on hardware, the hackathon has both software development as well as IoT and robotics part, you can choose any of the two domain and unleash the ideas in your brain to show your out of the box content.

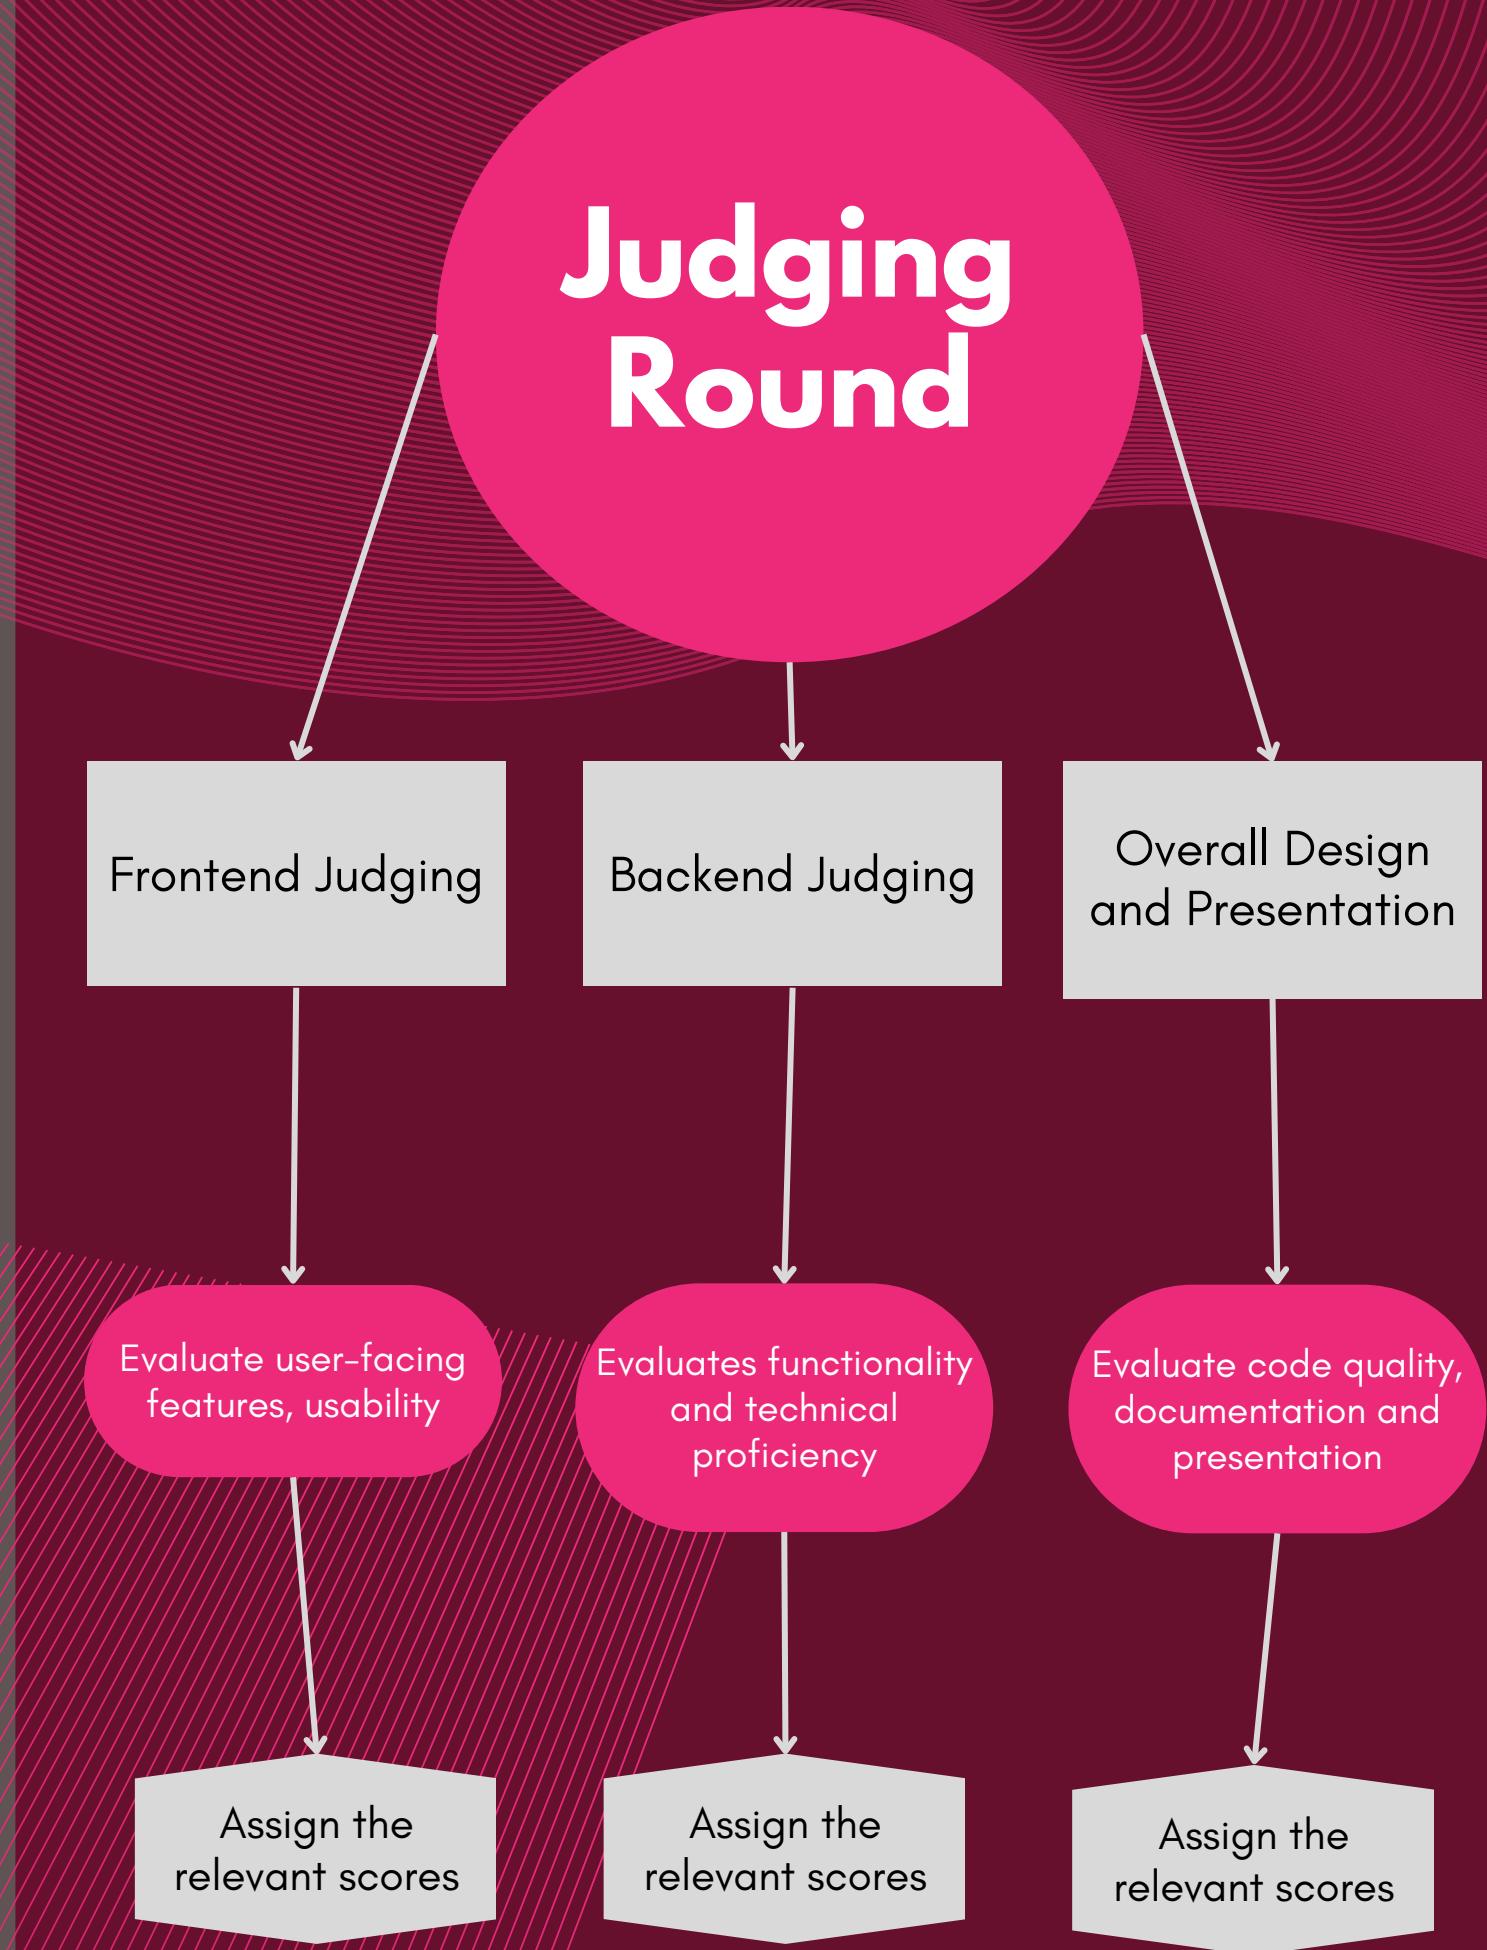

PROMOTE 'INNOVATION CULTURE':

As time passes all the things do feel outdated and for that reason innovation in every field is important, for this reason we have not just placed 4-5 problem statements for you but there are more than 15 problem statements so that you can choose the best which suits your stack.

Judgement Criteria

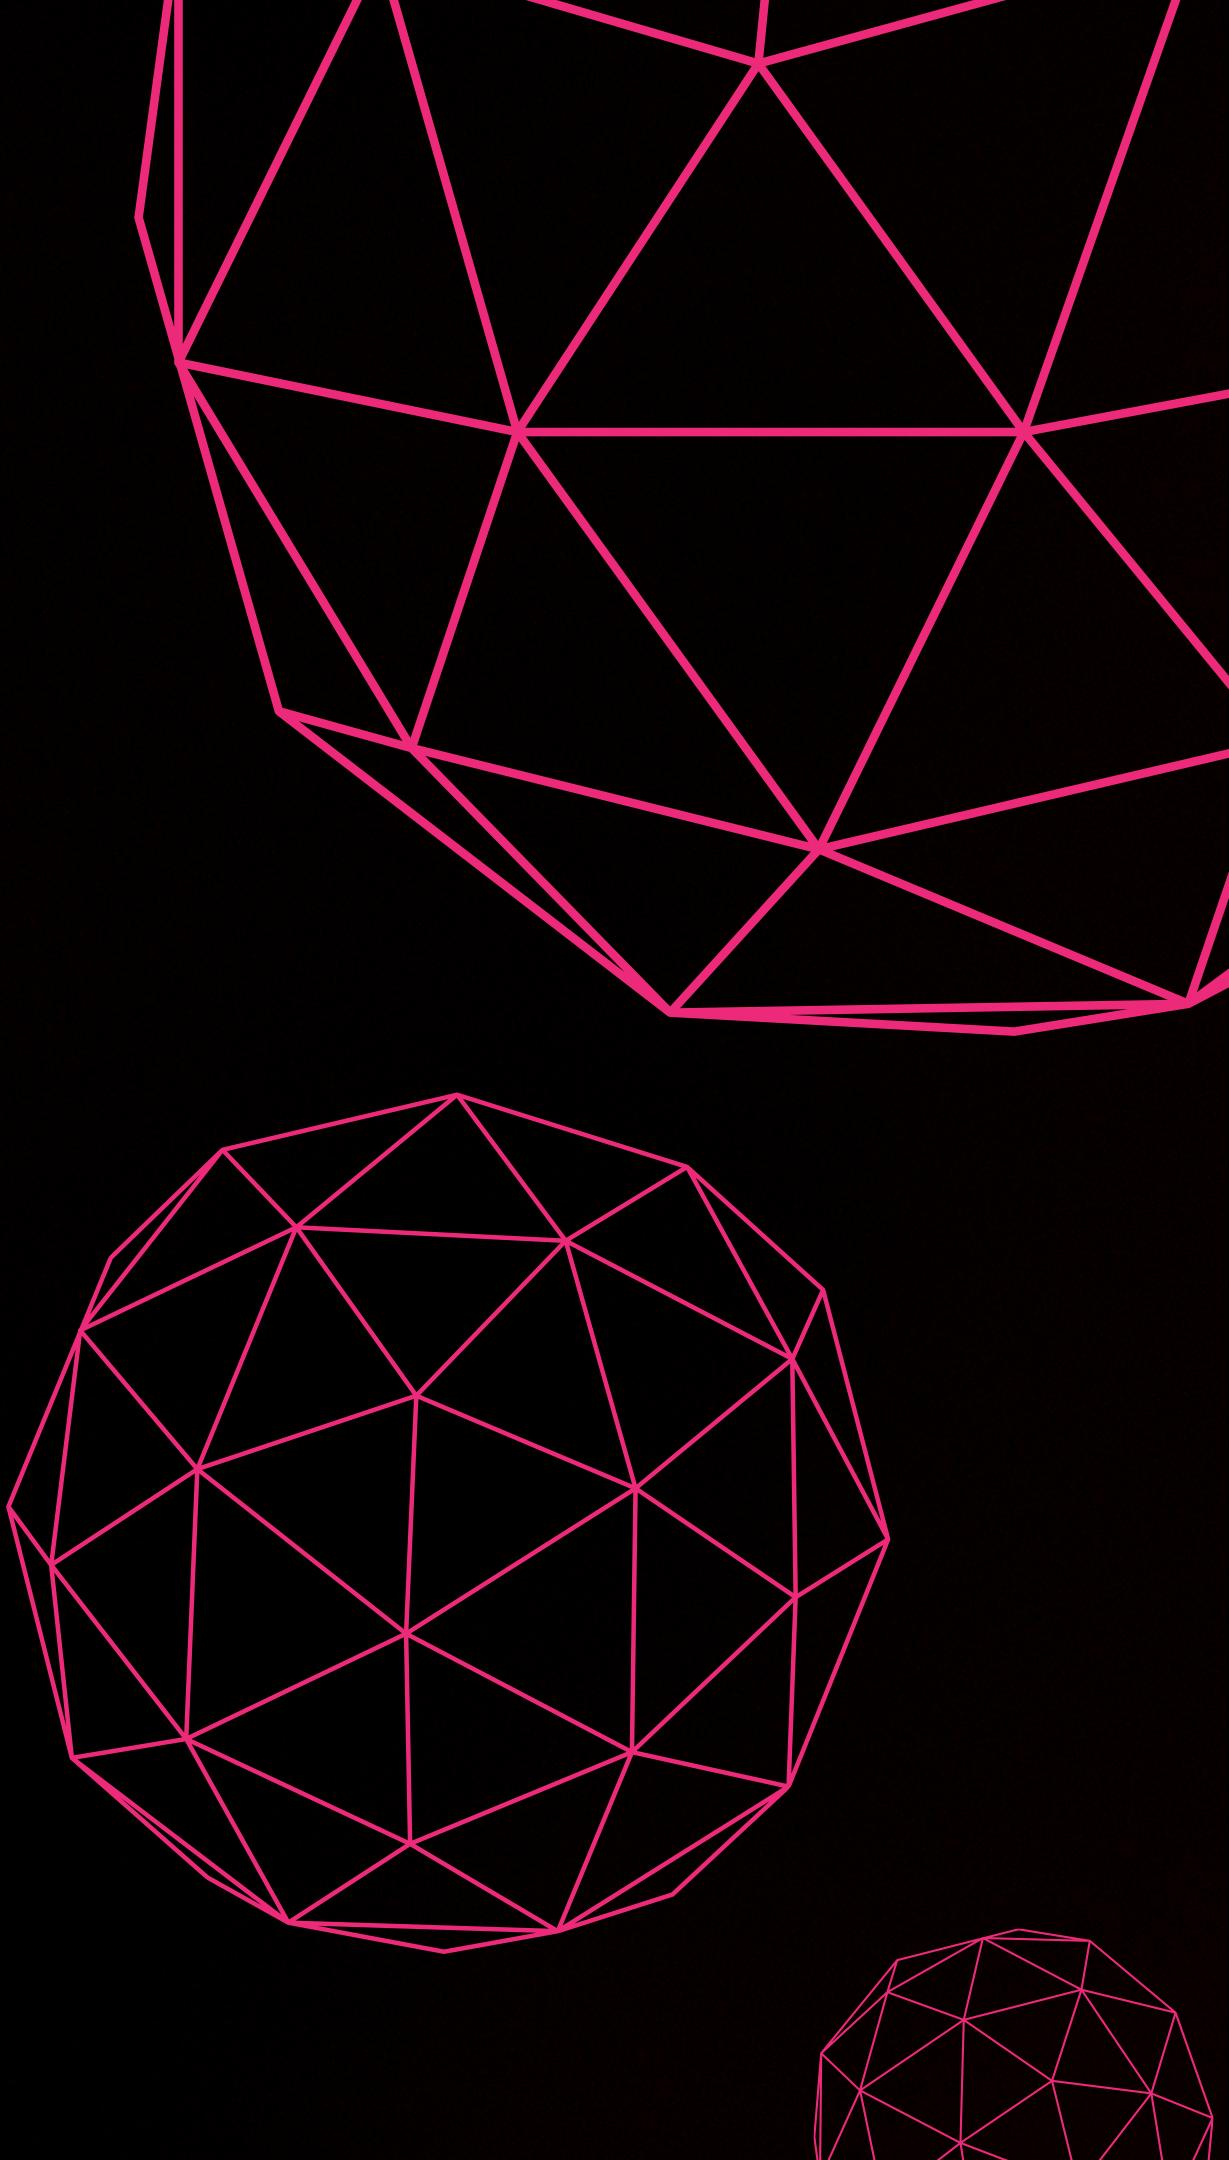

Because we want to separate the hackers from the slackers !!

- Our approach to the judging process is to divide it into separate rounds for checking the frontend and backend of the submissions. This allows for a more comprehensive evaluation of the technical aspects of the projects, as well as the user-facing features and overall design.
- In the frontend judging round, the judges will evaluate the user interface and user experience of the submissions. They will look for elements such as ease of use, clarity of design, responsiveness, and accessibility.
- In the backend judging round, the judges will evaluate the functionality and technical aspects of the submissions. They will look for elements such as data storage and retrieval, database design, scalability, security, and overall technical proficiency.

Key Highlights

- Focuses on both software and hardware development
- Attractive Prizes for the winners
- Reaching to 100+ colleges

Rules

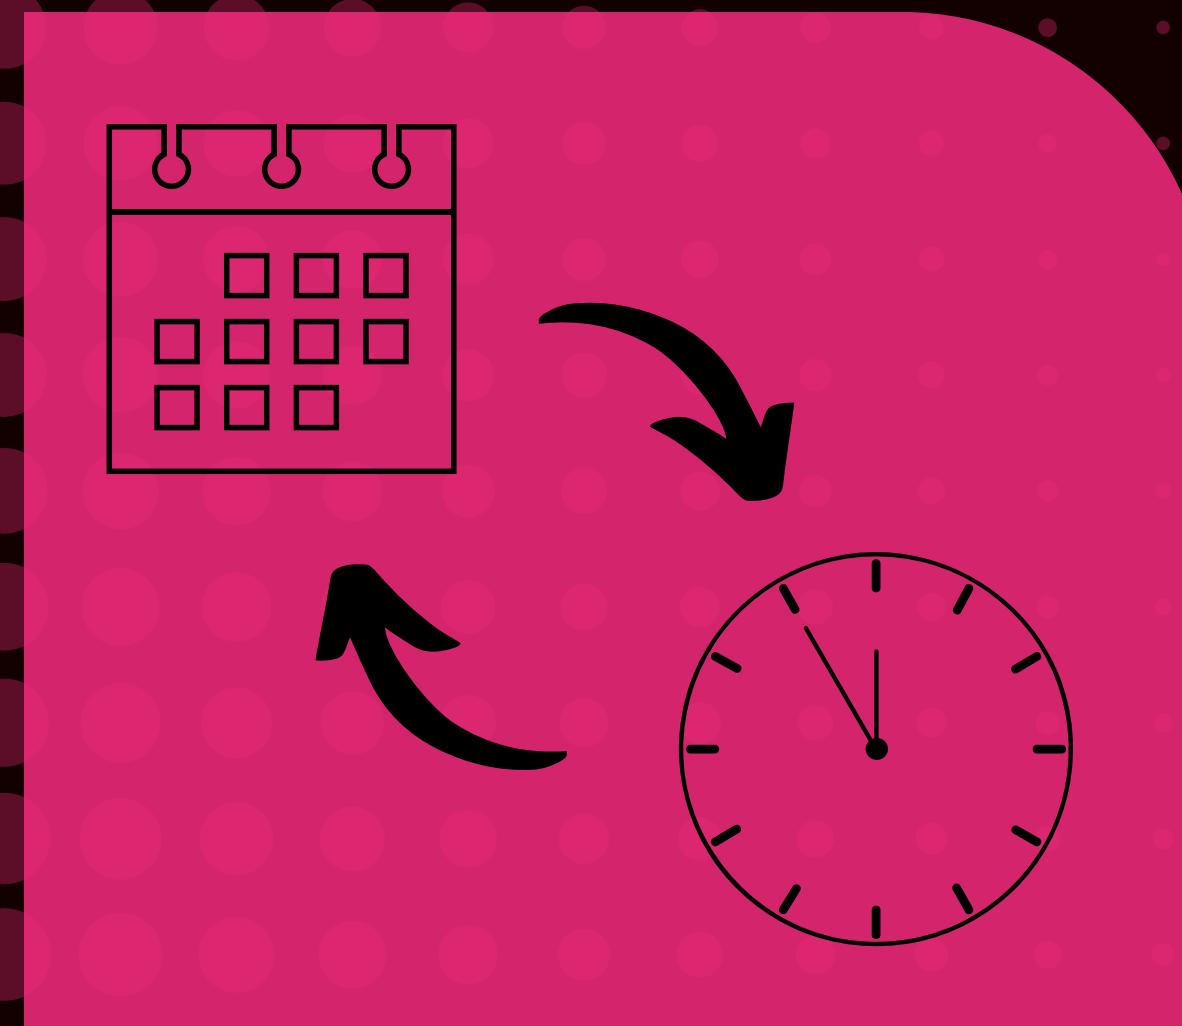

Innovate ethically, collaborate respectfully, and deliver within the deadline !

- **House Of Hackers would be a 36 hours hackathon.**
- **The evaluation would be done by the judges in two rounds, the last round would be a presentation round in front of the panel of judges.**
- **All the solutions should be targeted from the problem statement provided by House Of Hackers only.**
- **There is no registration fees for this event.**
- **Internet would be provided at the venue.**
- **Catering and refreshments would be provided during the hackathon.**

Proposed Timeline

From ideation to execution, a hackathon timeline is a race against the clock, fueled by innovation and collaboration.

RESULT DECLARATION

Why Sponsor us ?

Bring your brand to the forefront of innovation and support the next generation of tech leaders by sponsoring a dynamic platform for collaboration, creativity, and problem-solving

Brand Awareness

- There will be a continuous promotion for 30 days on the official website of House Of Hackers. You will get an opportunity to put your business in front and center and present your brand to a wide audience.

Feasible Marketing

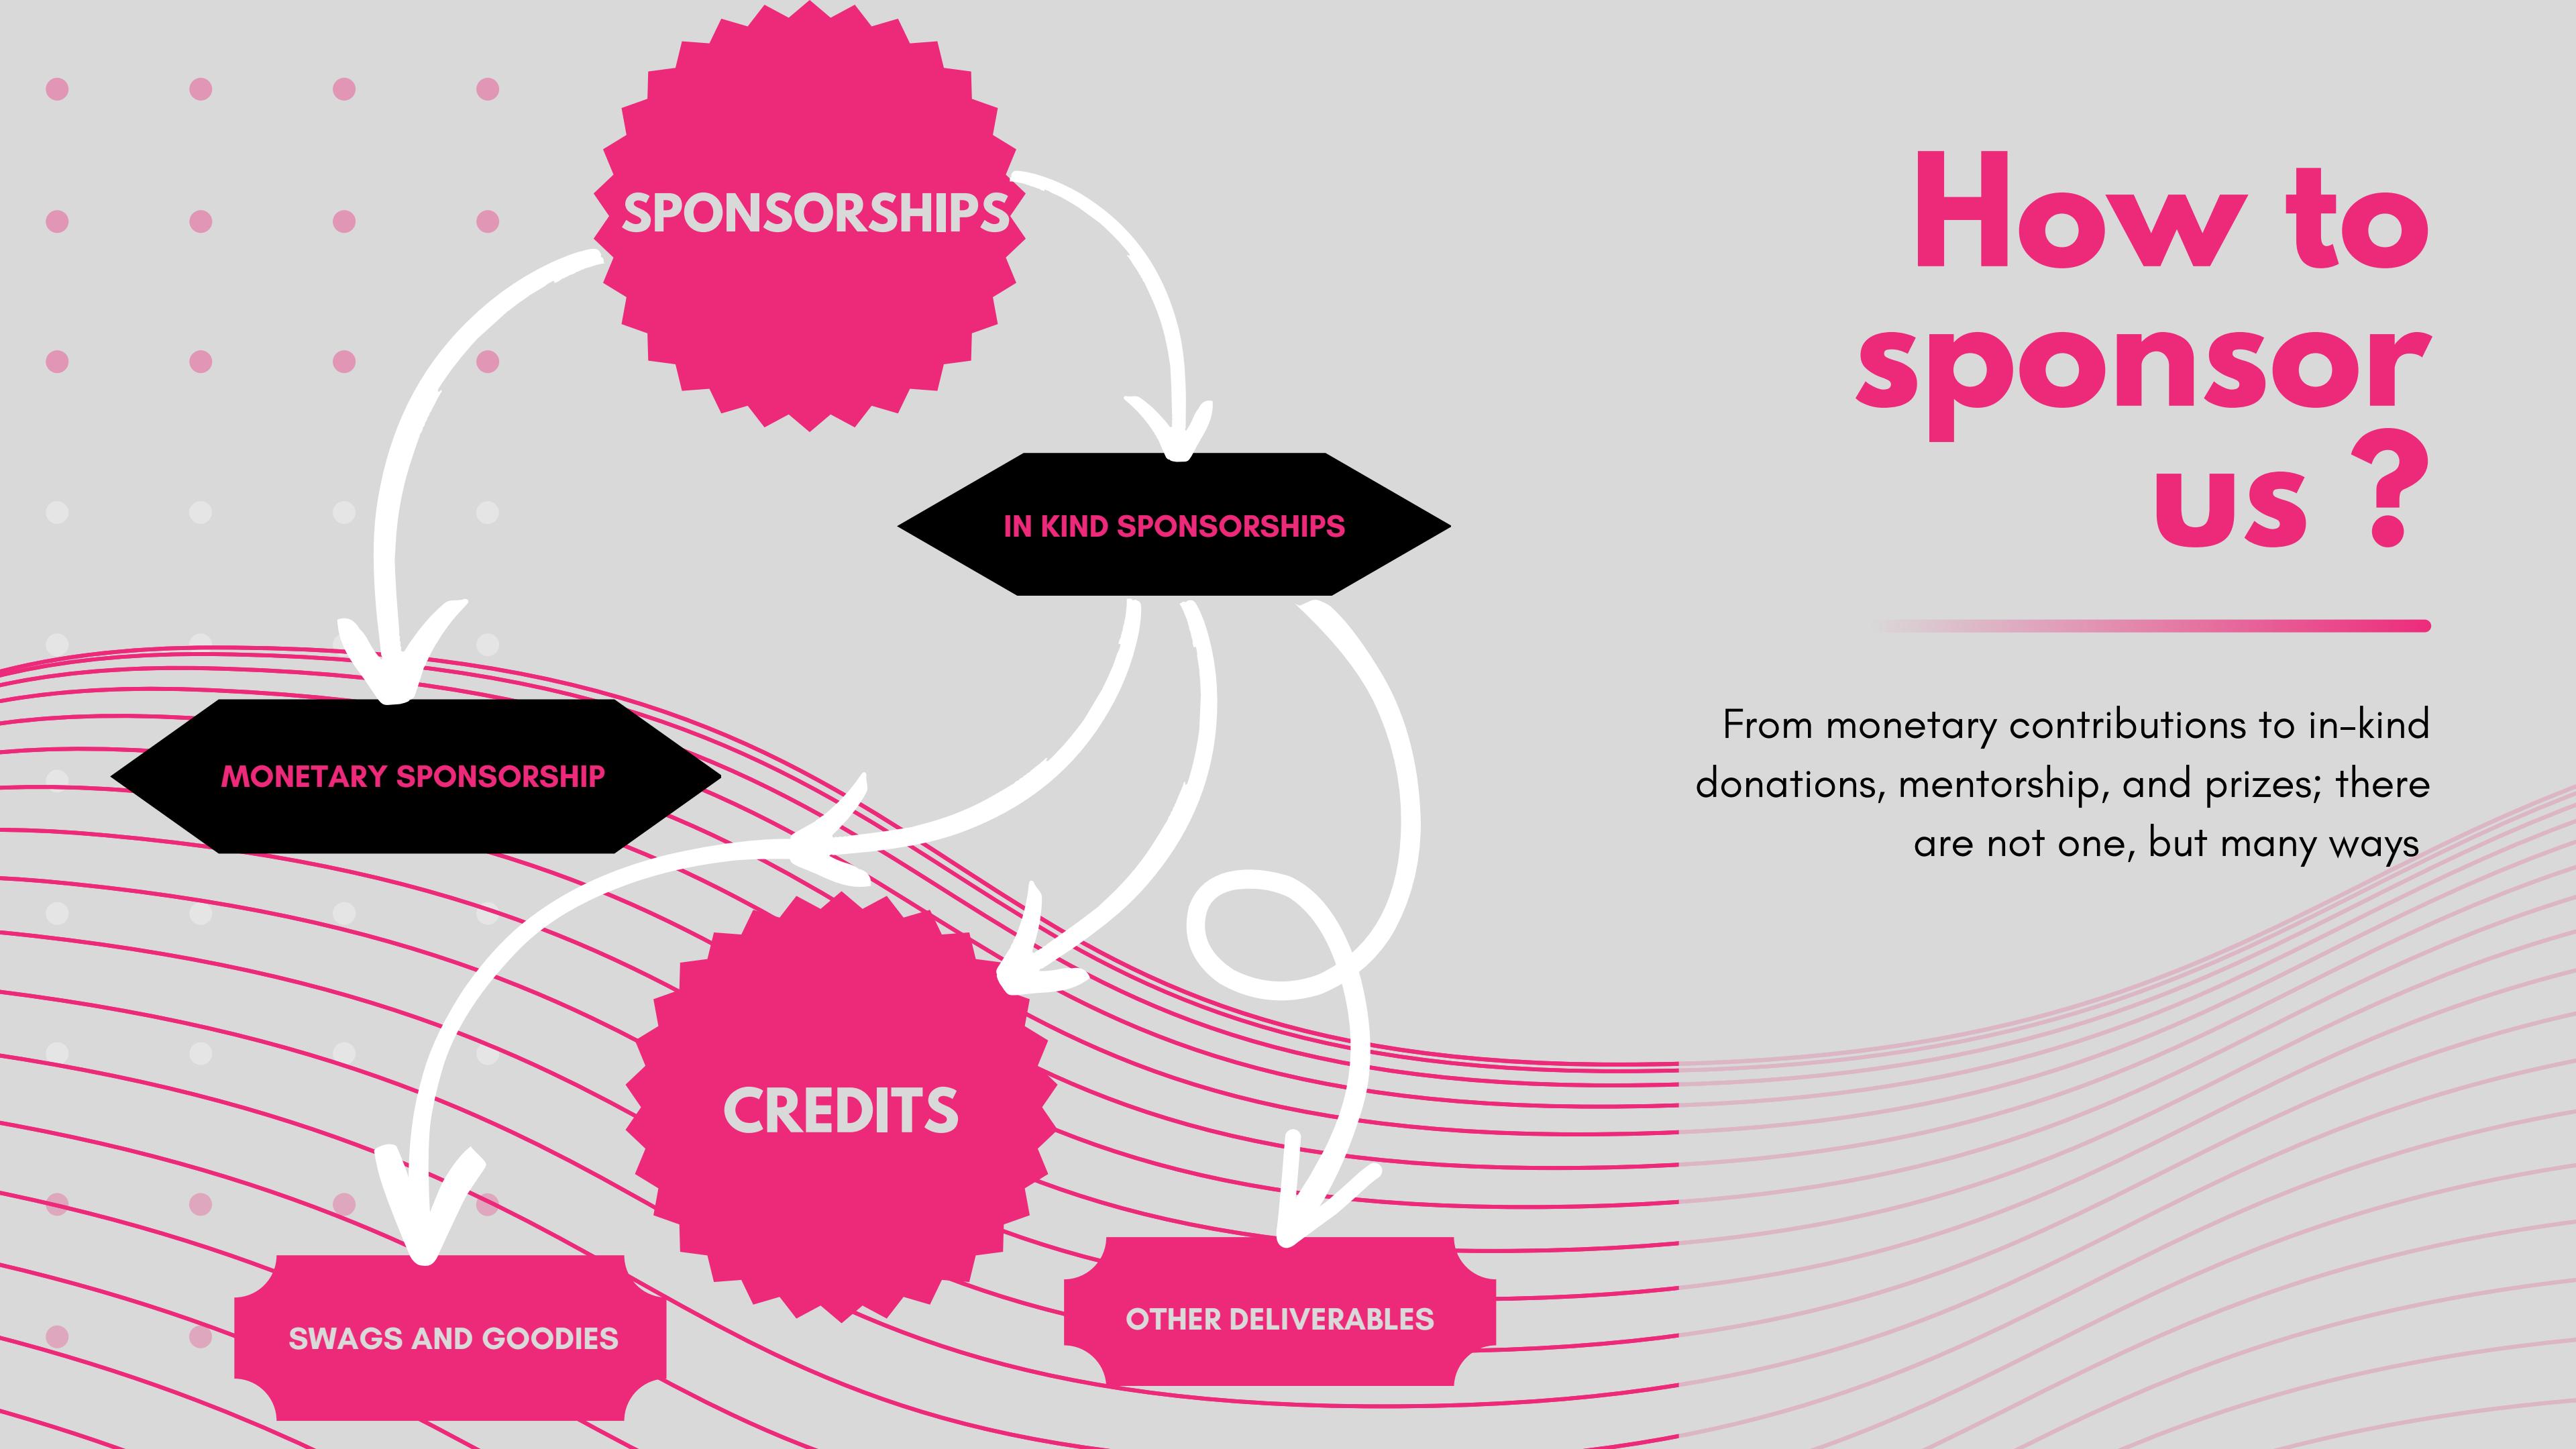

- Our sponsorship slabs are reasonably priced to ensure maximum benefits and perks to our sponsors.

Flexibility

- We are open to sponsorship in many forms. With us, you can get tailor-made sponsorship benefits that suit your needs.

How to sponsor us?

From monetary contributions to in-kind donations, mentorship, and prizes; there are not one, but many ways

Sponsor Packages

4.

Silver Sponsor

₹ 11,000

3.

Gold Sponsor

₹ 21,000

2.

**Platinum
Sponsor**

₹ 41,000

1.

**Title
Sponsor**

₹ 51,000

DELIVERABLES	TITLE SPONSOR	PLATINUM SPONSOR	GOLD SPONSOR	SILVER SPONSOR
SOCIAL MEDIA MENTION				
LOGO ON WEBSITE				
LOGO ON CERTIFICATE AND BANNER				
LOGO ON STARTER KIT AND REFRESHMENT KIT				
FEATURED PROBLEM STATEMENTS				
PROMOTIONAL EVENT				
SPECIAL BANNER IN COLLEGE CAMPUS				
CUSTOM PRIZE				
ACCESS TO PARTICIPANT DETAILS				

PRIZE POOL

First Prize

**Upto ₹ 60,000
plus goodies**

Second Prize

**Upto ₹ 30,000
plus goodies**

Third Prize

**Upto ₹ 15,000
plus goodies**

**Every participant would be provided with starter kit and swags.*

THANK YOU.
